

Introducing our new Glow range including products from our standard items line from Bolero Jackets to Cylinder Covers and Surcoats and more. These innovative products have been designed to improve any emergency situation and increase everyone's safety.

We have developed these highly visible products in partnership with Scilif combining our expertise in manufacturing robust durable protective equipment with their innovative illuminating active technology SUNFIBRE.

## NEW GLOW RANGE

The Boleros can be purchased as a set with all incident command jackets included. Within the set you receive the following:

- Incident Commander
- Safety Officer
- Command Support
- Sector Commander
- Tactical Advisor
- 5 batteries
- 1 PVC Surcoat Bag

The world is always expanding with better technology, which is why Speeding's has decided it's time to upgrade our products...

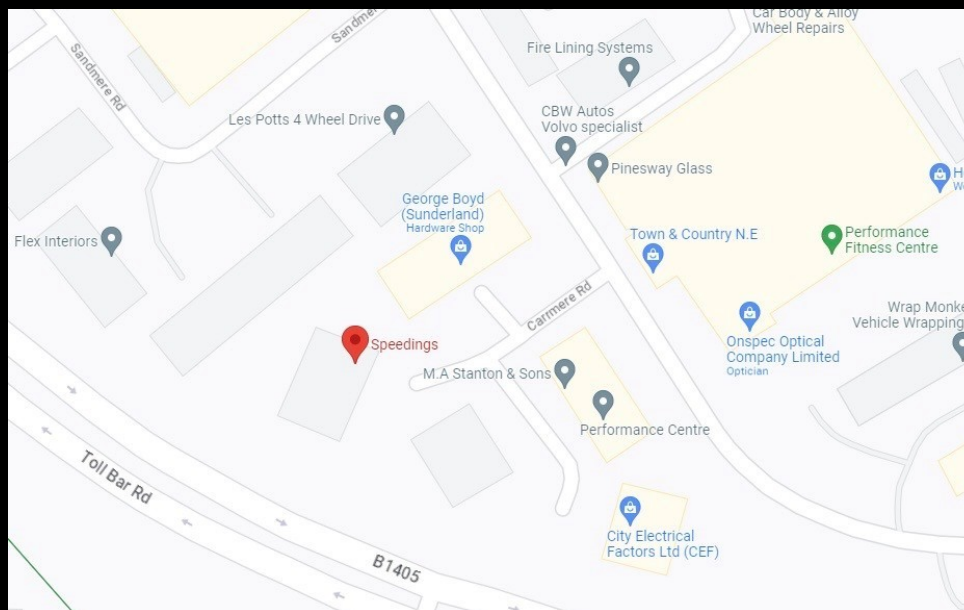

Introducing the **NEW** Glow Cylinder Covers! Over the last nine months Speeding's have been planning a way to turn a standard Cylinder Cover, into an innovative product.

They can be manufactured with using either:

- PVC
- Nomex

and can also be plain or our full spec. to include FULL/MT labels and printing etc.

We are conveniently located  
in Leechmere Ind. Estate,  
Sunderland, SR2 9TW.
